

EUROLUB COOLANT READY-MIX UNIVERSAL RTU

Description

COOLANT READY-MIX UNIVERSAL RTU is a radiator protection agent based on ethylene glycol, which is used as RTU (Ready to Use).

The product must not be further diluted with water!

COOLANT READY-MIX UNIVERSAL RTU contains high-quality corrosion additives and is characterized by optimum corrosion protection for all metals and metal alloys used in the cooling system, including aluminium.

COOLANT READY-MIX UNIVERSAL RTU can be used in all passenger cars and light commercial vehicles. It is safely miscible with all coolants in the radiator system.

COOLANT READY-MIX UNIVERSAL RTU is colored yellow and adjusted to a freezing point of -37°C. The product is already mixed 50/50 with water.

Can be used with
